## **HOW TO BE A VOLUNTEER IN AFRICA**

Hi! My name is Káťa Rozínková, and I recently graduated from college. And then I went to Africa! Why?

My goal wasn't just to get to know a 3rd world country. I went to Uganda in the first place to work in a children's hospital.

What's life like at the equator? How much difference is there between doctors here and in Uganda? And what are the things one should prepare for when traveling to volunteer in a developing country?

How does this country work from the perspective of a young European woman? All this and more you can learn on
